DS-XS6604/06/09/12-S/BR
Wall Mounted Cabinet

- The cabinet frame is welded from door frames and cross beams, ensuring a solid overall structure. This cabinet features a dual-section design, supporting front and rear door access, facilitating equipment installation and maintenance. The cabinet meets the 19-inch mounting standard and is compatible with ETSI standard equipment installation. Internal dimensions can be customized to user requirements. Suitable for data centers, voice rooms, wiring closets, production areas, and warehouses, where the protection and maintenance of heavy-duty network equipment are needed.
