H4 Video Intercom

Remotely Identify, Communicate and Authorize Access

The H4 Video Intercom integrates a 3 MP fisheye camera with a high-performance intercom, featuring echo-canceling and noise reduction technologies, for clear two-way communication with visitors. Combined with Avigilon Control Center (ACC) video management software, this secured entry system enables operators to quickly and easily identify and talk with a visitor before remotely granting access.

Appearance Search

Use ACC™ software to quickly search for a visitor using Avigilon Appearance Search™ technology, which incorporates the unique characteristics of a person's face to search for the same individual, even if items such as their clothing change over time.

Features

SELF-LEARNING VIDEO ANALYTICS
Automatically adjusts and continually adapts to changing scene conditions without needing any manual calibration

HDSM SMARTCODEC™ TECHNOLOGY
Optimizes compression levels for regions in a scene to help maximize bandwidth savings

WIDE DYNAMIC RANGE
Capture details in scenes with both very bright and very dark areas

LIGHTCATCHER™ TECHNOLOGY
Exceptional detail in low-light setting

WIDE ANGLE OF VIEW
120° vertical angle of view to clearly capture individuals of different heights

WEATHER & IMPACT RATED
IP66 weather rating and IK10 impact rating for vandal resistance

CONTENT ADAPTIVE IR
Adjusts IR beam width and illumination settings based on scene conditions to help maximize image quality
